

REVEALS™ THERMOPLASTICS

Thermoplastics designed to meet the special needs of the hand therapist!

What's so special about REVEALS™?

There's a version of **REVEALS** suited to every splinting challenge you might come across. So, no matter how comfortable you are with splinting, or what your preference in properties there's a version of **REVEALS** for you. And, for greater economy of time and money while splinting - **REVEALS** comes in a wide range of special sizes.

What are the characteristics of REVEALS?

Ivory colored sheets *turn transparent when soft* - this lets you know when the material is sufficiently heated. Transparency helps assure a proper fit for patient comfort, by allowing you to landmark for proper placement and observe for potential pressure points

- *resists fingerprints* and marks for a durable, professional looking splint.
- available in 3 *thicknesses* to allow for just the right amount of support and rigidity
- *memory* allows for economical splint modification - just reheat and remold over and over again
- available with non-stick acrylic-coated surface for *easy handling* or quick-bond surface that bonds instantly on contact
- available in solid or a variety of perforation patterns for cooler, more *comfortable* splints

How do I choose the appropriate thickness?

3 different thicknesses of REVEALS - let you offer the necessary support with the least amount of bulkiness

1/16"

VERY LIGHTWEIGHT AND EASY TO CUT WHEN COLD!

Ideal for circumferential wrist supports, bivalved splints, finger, thumb and hand-based splints and pediatric splints.

Not recommended for spasticity or weight bearing splints.

WF-1S1	18" x 24" solid ivory sheet	\$49.88
WF-1S1xx	18" x 24" solid colored sheet	\$53.03
WF-1P1	18" x 24" perforated (40%) ivory sheet	\$60.38
WF-1P1xx	18" x 24" perforated (40%) colored sheet	\$63.53

3/32"

LIGHTWEIGHT WITH MODERATE SUPPORT!

Provides adequate support with minimal bulk for most arthritis splints, pediatric splints, dynamic splint bases and static upper extremity splints.

WF-2S1	18" x 24" solid ivory sheet	\$55.13
WF-2S1xx	18" x 24" solid colored sheet	\$58.28
WF-2P1	18" x 24" perforated (40%) ivory sheet	\$65.63
WF-2P1xx	18" x 24" perforated (40%) colored sheet	\$68.78

1/8"

THE TRADITIONAL THICKNESS FOR GREATER SUPPORT!

Upper extremity static, static-progressive and dynamic splints, upper extremity fracture braces, lower extremity splints, spasticity splints.

WF-3S1	18" x 24" solid ivory sheet	\$57.75
WF-3S1xx	18" x 24" solid colored sheet	\$60.90
WF-3P1	18" x 24" perforated (40%) ivory sheet	\$68.25
WF-3P1xx	18" x 24" perforated (40%) colored sheet	\$71.40

Molding properties of REVEALS™ Thermoplastics

There are 3 versions of REVEALS™ ...each with a different degree of moldability:

REVEALS™ LS provides *Less Stretch* (LS) for maximum control with a minimum degree of stretch and drape. Reveals™ LS responds well to aggressive handling when splinting difficult or uncooperative patients.

It is the material of choice for spasticity splints, large upper and lower extremity splints, back supports and serial splints that require frequent modifications. If you would like to order sheets as *Less Stretch*, please add the suffix LS to the appropriate part number.

This very "forgiving" material is the perfect choice for the occasional splint maker.

REVEALS™ The traditional or *Moderate Stretch* version of Reveals™ provides a balance of controlled stretch and moldability. This version resists unwanted stretch yet conforms well for making wrist, hand, finger and thumb splints, as well as lower extremity splints.

Reveals™ contours easily and provides good detail with moderate to aggressive handling. It is an excellent choice for upper and lower extremity static, static-progressive and dynamic splints. Sheets are shipped *Moderate Stretch* unless specified otherwise.

REVEALS™ XS provides *extra stretch* (XS) and exceptional moldability for duplicating intricate details of soft tissue. This material requires minimal handling. It is well-suited for splinting patients with inflamed joints or sensitivity who require a gentle touch when splinting, and for contouring intricate hand splints.

Reveals™ XS is recommended for the more experienced splint maker.

REVEALS™ COLORS

Reveals™ Thermoplastics are available in a variety of colors to add fun and variety to your splints. Ideal for all ages. Bright neons work wonders with visual field defects and neglect. Add brightly colored straps for even greater eye appeal. Vividly colored splints are less likely to become lost in institutional laundry.

Glow-in-the-Dark Nite-Lite™ Blue

Right/left discrimination problems? Color code your patient's splints to identify right and left.

Let your patients choose their favorite color, selecting from a subtle pastel, a bright neon, an inconspicuous skin tone, or even our exciting new *Glow-in-the-Dark*. To order please add the two letter color code to the appropriate part number. Not all thicknesses or perforation patterns are available in every color. Please call for details.

Pictured left to right: Ivory, Blush (BL), Bronze (BZ), Deep Bronze (DB), Orange (OR), Plum (PL), Black (BK), Spring Green (SG), Pastel Blue (PB), Medium Blue (MB), Electric Blue (EB), Pastel Pink (PP), Medium Pink (MP), Hot Pink (HP). Not pictured: Glow in the Dark Nite-Lite Blue (GB)

CLIKSTRIPS™ MP FLEXION KIT

Vazquez Inelastic Mobilization Splinting System THE COBRA™ OUTRIGGER SYSTEM

This kit contains everything needed to make one MP flexion Inelastic Mobilization Splint.

Including:

- 1). Reveals™ precut splint base
- 2). Pre-molded Cobra™ Outrigger
- 3). ClikStrips™ Inelastic Mobilization Splinting Component
- 4). Fabriplast finger sling
- 5). Monofilament
- 6). Line crimps

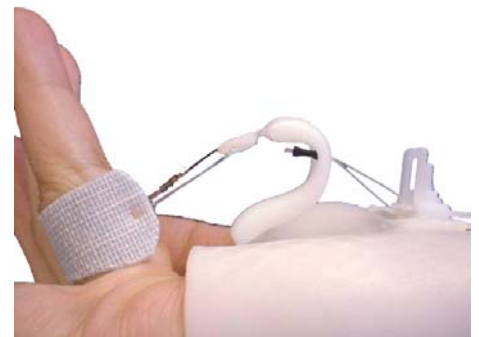

Directions:

1). Mold Reveals splint base. This circumferential splint is designed to fit most hands with only minor trimming. The dorsal side of the splint features a sliding closure. Mark desired location for Cobra Outrigger and ClikStrips Lockclip on palmer surface. Remove surface coating from splint with either splint solvent or sand paper. Using UltraTorch® or heat gun, dry heat the bottom of the Cobra outrigger, the thermoplastic mounded to the Lockclip, and the corresponding locations on the Reveals splint base. Adhere to splint. Make sure the larger side of the ClikStrips Lockclip and the head of the Cobra outrigger faces fingers. Massage to create a secure bond.

2). Mold Fabriplast finger-sling to affected finger. Attach monofilament from finger-sling to hole in head of Cobra using supplied line crimp. Attach monofilament from hood of Cobra to hole in ClikStrips Strip. Adjust as necessary. Feed strip through Lockclip. Incremental adjustments are indicated by an audible click. Pinch ClikStrips™ Lock to release traction.

Self adjusts to maintain a 90 degree angle of pull

Part number **WF-2003** \$12.95 each kit

Also available as individual components:

- WF-2002 Individual ClikStrips \$4.15 each
- WF-2004 Individual Cobra Outrigger \$2.10 each
- WF-1SD11 Individual Pre-cut Splint \$6.83 each

- technique developed by a hand therapist
Nelson Vazquez, OTR/L, CHT

For more information visit www.ClikStrips.com, or contact:
WFR Corporation • 30 Lawlins Park • Wyckoff, NJ 07481 • phone: 201-891-1042

CLIKSTRIPS™ DIP FLEXION KIT

Vazquez Inelastic Mobilization Splinting System FOR OBLIQUE RETINACULAR LIGAMENT TIGHTNESS

This kit contains everything needed to make one DIP flexion Inelastic Mobilization Splint.
Including:

- 1). Reveals™ precut DIP splint base made from 1/16" solid Reveals
- 2). ClikStrips™ Inelastic Mobilization Splinting Components (pre-Bonded to DIP splint base)
- 3). PIP Dorsal Stabilizer made from 1/16" Reveals Thermoplastic

Directions:

- 1). Heat splint until splint base is clear.
- 2). Remove immediately as to not allow LockClip base to become clear.
- 3). Gently spread the opening and slide the splint base into the digit with the LockClip proximal end) on the volar side.
- 4). When the LockClip reaches the PIP joint, lift the distal end to place it on the dorsum of the distal phalanx as you continue to slide the splint proximally.
- 5). Flare the proximal and distal end of the volar base clearing DPC and the distal interphalangeal crease.
- 6). Leave at least ¼ inch between the tip of the finger and the distal end of the splint base.
- 7). As the splint cools maintain the MP joint in slight hyperextension and the PIP and DIP at 0°.
- 8). The Flexible thin strips act as a hinge, but a crimp can be made in alignment with the DIP joint axis.
- 9). Heat the PIP dorsal Stabilizer and stretch it over the PIP joint overlapping the splint base circumferentially, trim as necessary. Secure with hook and loop if desired.
- 10). Bend ClikStrips Strip and slide into LockClip one click at a time.* (Due to compression to the digital arteries consider applying splint 3 times per day for 30 minutes, advancing the Strip one Click every 5-10 minutes as tolerated.

Part number WF-2006 \$10.45 each kit

- technique developed by a hand therapist
Nelson Vazquez, OTR/L, CHT

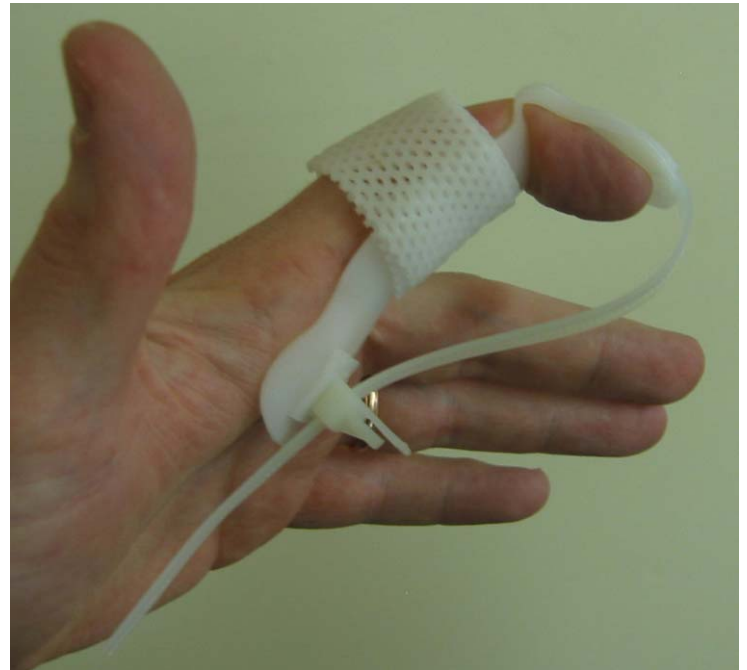

Also available as individual components:

WF-2002 Individual ClikStrips \$4.15 each

WF-1SD12 Individual Pre-cut DIP Splint \$4.73 each

For more information visit www.ClikStrips.com, or contact:
WFR Corporation • 30 Lawlins Park • Wyckoff, NJ 07481 • phone: 201-891-1042

Pre-cut Splints:

Pre-cut #1: Hand based thumb splint

WF-1SD1 Made from 1/16" solid Reveals™ \$7.35

Pre-cut #2: Circumferential hand based thumb spica splint

WF-1SD2 Made from 1/16" solid Reveals™ \$9.45

Pre-cut #3: Hand based thumb spica splint (ulnar free design)

WF-1SD3 Made from 1/16" solid Reveals™ \$7.35

Pre-cut #4: Volar wrist extension (cock-up) splint

WF-2SD4 Made from 3/32" solid Reveals™ \$9.45

Pre-cut #5: Thumbhole wrist extension (cock-up) splint

WF-2SD5 Made from 3/32" solid Reveals™ \$11.55

Pre-cut #6: Dorsal wrist extension (cock-up) splint

WF-2SD6 Made from 3/32" solid Reveals™ \$9.45

Pre-cut #7: Volar pan resting splint

WF-3SD7 Made from 1/8" solid Reveals™ \$16.80

Pre-cut #8: Forearm based thumb spica splint

WF-2SD8 Made from 3/32" solid Reveals™ \$14.70

Pre-cut #9: Circumferential metacarpal splint

WF-2SD9 Made from 3/32" solid Reveals™ \$6.30

Pre-cut #10: Munster splint

WF-3SD10 Made from 1/8" solid Reveals™ \$16.80

Pre-cut #11: KlikStrip base

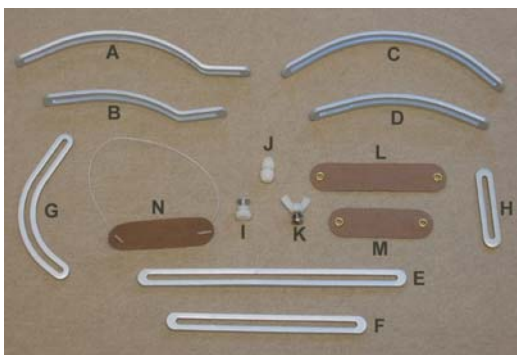

WF-1SD11 Made from 1/16" solid Reveals™ \$6.83

If you prefer pre-cuts from perforated Reveals™, please add \$1.00 to cost of splint, and change the letter "S" in part number to the letter "D". (For example Hand based thumb splint #WF-1SD1-1/16" solid Reveals™ at \$7.35 each would be #WF-1PD1-1/16" perforated Reveals™ at \$8.40 each)

DIGITEC Outrigger System:

Digitec components simplify the fabrication of custom outriggers for dynamic splinting. Items may be purchased separately or in kit form. Six base outriggers and two multiple digit attachments are used interchangeably to simplify fabrication of custom dynamic splints.

WF-DGA	7" (18cm) Curved Outrigger with Foot (pkg. of 3)	\$24.10
WF-DGB	5" (13cm) Curved Outrigger with Foot (pkg. of 3)	\$24.10
WF-DGC	7" (18cm) Curved Outrigger (pkg. of 3)	\$24.10
WF-DGD	5" (13cm) Curved Outrigger (pkg. of 3)	\$24.10
WF-DGE	7" (18cm) Straight Outrigger (pkg. of 3)	\$24.10
WF-DGF	5" (13cm) Straight Outrigger (pkg. of 3)	\$24.10
WF-DGG	2" (5cm) Straight Multi-Digit bar (pkg. of 2)	\$12.08
WF-DGH	4" (10cm) Curved Multi-Digit bar (pkg. of 2)	\$22.05
WF-DGI	Thumb Screws (pkg. of 10)	\$5.51
WF-DGJ	Line Guide (pkg. of 10)	\$7.88
WF-DGK	Wing Nut (pkg. of 5)	\$5.20
WF-DGL	4" (10cm) Finger Slings w/ Grommets (pkg. of 10)	\$11.50
WF-DGM	3" (8cm) Finger Slings w/ Grommets (pkg. of 10)	\$10.44
WF-DGN	3" (8cm) Pre-tied Finger Slings (pkg. of 10)	\$11.49

SPLINTING ACCESSORIES

ContourTubes™

Versatile, hollow low temperature thermoplastic rods provide a quick and easy alternative for high or low profile dynamic outriggers. Quicker than rolling your own thermoplastic outriggers, easier to shape than copper rods, and simple to attach. Just heat and shape these instant bonding ContourTubes™ without any special tools.

Perfect for use as a line guide with dynamic splinting to direct the line of pull -- simply bond a length of ContourTubes™ to the splint base and thread the splint line through it.

	<u>2ft. length</u>	<u>3 ft. length</u>	<u>6 ft. length</u>
3/16" diameter blush	WF-1101BL \$2.94	WF-1100BL\$4.30	WF-1106B \$8.56
3/16" diameter	WF-1101 \$2.94	WF-1100 \$4.30	WF-1106 \$8.56
1/4" diameter	WF-1102 \$5.35		WF-1107 \$16.07
3/8" diameter	WF-1103 \$7.88		

Reveals™ Pellets

Adapt all types of equipment with these easy-to-use thermoplastic pellets. Customize any gripping surface to accommodate your patient's grasp pattern. Modify hand grips on tools, utensils, pens and pencils, keys, walkers, crutches, canes, and any other device that is difficult to grasp. Adapt headsticks, mouthsticks, and wheelchair brake extensions; post AFO's; attach static-progressive and dynamic outrigger components, and much more.

Reveals™ Pellets require no special equipment or solvents. They soften quickly in hot water and bond together into a moldable mass. Contour onto any surface. Soften and remold as needed to accommodate your patient's changing needs. Available in 1 lb. and 3 lb. containers.

WF-7001	1 lb Bag	\$17.69
WF-7003	3 lb Tub	\$42.84

Stainless Steel Heating Pans

Durable, stainless steel heating pans maintain ideal water temperature. Convenient, split-hinged lid minimizes evaporation while splinting. External drain valve for efficient emptying and cleaning. 1 year warranty. Supplied with hospital grade plug. Constructed with UL listed components. Available in 3 sizes.

Compact model- (1000 watts) **WF-2035 \$236.25**
Inside dimension: 13" x 9 1/2" x 2 1/4" Stainless steel liner.

Economy model- (600 watts) **WF-2031DS \$759.62**
Inside dimension: 19 1/2" x 11 7/8" x 4 1/2"
Outside dimensions: 23 1/2" x 14 1/4" x 7"

Deluxe model- (720 watts) **WF-2021DS \$1,175.27**
Inside dimension: 24 1/2" x 18 1/2" x 5" *Fits a full 18"x24" sheet!*
Outside dimensions: 28 1/2" x 21" x 7"

WF-2035

WF-2021DS

TOOLS and ACCESSORIES

Electric Heating Pan

Heating pan with non-stick surface. Ideal for smaller sheets of splinting material. Constructed with UL listed components.

Electric heating pan with Hospital grade plug	WF-2305	\$98.96
Electric heating pan with 3 prong plug	WF-2335	\$83.21
Electric heating pan with 2 prong plug	WF-2315	\$61.16
Replacement temperature control w/Hospital grade plug	WF-2210	\$39.90
Replacement temperature control with 3 prong plug	WF-2058	\$23.89

Mobile Splint Bench

Add an extra workstation to your busy clinic! Ideal for organizing, storing and transporting all of your splinting materials, tools and accessories. 24" deep x 42" long work surface easily accommodates heating pan--with plenty of room to spare for splint making. 35" height work surface. 2 locking casters for safety. Equipped with two adjustable shelves, drawer and locking cabinet. Constructed of white Formica. Shipped fully assembled.

WF2111 DS Mobile Splint Bench **\$789.23**

Unlimited™ Scissors

Flexible non-slip handles provide comfortable grip and joint protection for the splint maker. Powerful leverage offers greater mechanical advantage. Stainless steel blades cut through unsoftened splinting materials.

WF4932 Unlimited Scissors **\$18.38**

Samson® Punch

Punches through any thickness splinting material with a minimal amount of effort. Spring loaded handles provide heavy-duty punching action. Complete with 1/4" hole punch. Other size punches sold separately.

WF4604 Samson® Punch with 1/4" die **\$62.95**

Extra punch and die sets:		\$20.48
WF4633 3/32" diameter	WF4636 3/16" diameter	
WF4618 1/8" diameter	WF4673 7/32" diameter	
WF4653 5/32" diameter	WF4614 1/4" diameter	

UltraTorch®

A compact, butane powered heat tool ideal for attaching KlikStrips, Reveals Tubes, and sticky back hook to splints. Heats without a flame. Self igniting.

WF-2480 UltraTorch model UT-40SI **\$65.73**

WF-2481 Butane for UltraTorch 26 gram canister (must ship via UPS ground)

Silent Heat Gun

Lightweight, self-standing model. Ideal for bonding and spot heating splinting materials. UL listed. 3 prong plug. 550 watts, 110 volts. Supplied with 650° F heating element. Spot heater sold separately.

WF2411 Silent Heat Gun **\$97.99**

Replacement Heat Elements: 500°F: **WF-2455**; 650°F: **WF-2456**; 800°F: **WF-2458**
